May 2025

HCCI HOME CENTERED CARE INSTITUTE | CONFERANALYTICS® Your Trusted Data Source for Home-Based Care

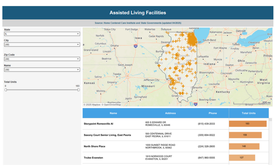
Welcome to the latest Confer Analytics® update! This quarterly newsletter brings you fresh data insights, upcoming feature releases, and expert tips to help you get the most out of your Home-Based Medical Care (HBMC) programs. From the latest performance trends in Medicare Advantage house call programs to our upcoming webinar, we've got valuable insights to keep you ahead in your field.

What's New:

We've updated our data!

The Confer Analytics® team has been diligently working to update our dashboards with the most recent CMS data available. We've highlighted those updates below:

- Assisted Living Facilities (Home-Based Medical Care > Partners, Referrals and Billing) - **Now Updated for the Entire US with 2025 Data!** For tips on how to most effectively use this dashboard, check out our **ConferPro Tip** below.



The following dashboards are now updated for the entire US through 2024:

- Market Share of HBMC by Metroplitan Area, County, and Provider (Home-Based Medical Care > Supply and Performance)
- Market Share of HBMC by Metropolitan Area, County, And Organization (Home-Based Medical Care > Supply and Performance)
- Clinician Affiliation with HBMC Programs (Home-Based Medical Care > Supply and Performance)
- Billing Codes used in HBMC in the US, FFS Medicare (Home-Based Medical Care > Partners, Referrals, and Billing).
- HBMC Referrals and HBMC Patient Leakage Sources and Destinations by State, FFS Medicare (Home-Based Medical Care > Partners, Referrals, and Billing)
- Home-Based Medical Care Penetration Rates by Patients' Characteristics in the US (Home-Based Medical Care > Demand)

The following dashboards are now updated with 2023 data:

- Older Adults in the US and their Characteristics, by Zip Code (Home-Based Medical Care > Demand)
- Older Adults in the US and their Characteristics, by County (Home-Based Medical Care > Demand)

What's Coming Next:

CMS has released 2024 Q4 Medicare claims data, and we are in the process of updating all dashboards. The **HBMC Scorecard dashboards** by both **Program and Provider** will be released in the coming weeks.

Our new Illinois Medicaid dashboards (Free Dashboards > IL Medicaid) detailing **market share, high needs patients**, and **scorecard of HMBC providers** will soon be expanded to include Medicaid data for the entire US.

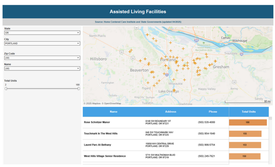
ConferPro Tip:



Looking to expand your partnerships? Our updated Assisted Living Facilities (ALF) Directory is here!

Our ALF directory has been refreshed with the latest data from all 50 states and the District of Columbia. This valuable resource is perfect for providers looking to establish partnerships with nearby facilities. The interactive dashboard enables you to easily find and connect with facilities, helping you treat multiple patients at a single location.

Visualized on a map for convenience, the directory allows you to quickly identify these nearby facilities. In addition, you'll find key details including the **facility's address, phone number, and the total number of units** to aid in your decision-making process.

Unlock new opportunities and streamline your patient care partnerships today!
