Care of the Complex Patient in the Home: Staying Ahead of the Curve

Clinical Session

Thursday, October 25, 2018
9:00 am - 12:00 pm

Our faculty of national experts in the field of home-based primary care will help you enhance your medical knowledge, patient care, and interpersonal and communication skills by illustrating the complex care needs of homebound patients with serious illness and their caregivers through case-based discussions, mini-lectures and small-group activities. Topics covered will include advance care planning and prognostication, care coordination and transitions of care, caregiver support, medication management, and wound care.

Objectives:

Upon completion of this educational activity, participants will be able to:

- Conduct discussions with patients and family around advanced care planning, serious illness communication and prognostication.
- Apply best practices in coordinating the care of homebound patients during transitions including hand-offs, medication reconciliation, and collaboration with community agencies.
- Describe the importance of caregiver support, as well as the screening tools and resources that can be utilized for caregivers.
- Discuss evidence-based practice for medication management, polypharmacy, de-prescribing and maximizing adherence.
- Discuss the prevention, diagnosis, prognosis, and therapeutics of wounds to minimize morbidity and maximize healing and comfort.

Practice Management Session

Thursday, October 25, 2018
1:00 pm - 4:00 pm

Our faculty of national experts in the field of home-based primary care will help you enhance your knowledge and skills to make your practice successful in both the current fee for service world and the ever-evolving value-based delivery system. This session will also include tips and practical advice for enhancing workflow and productivity.

Objectives:

Upon completion of this educational activity, participants will be able to:

- Identify billing opportunities and documentation requirements beyond the normal E/M codes and apply strategic tips for implementing these into daily practice.
- Identify opportunities for staffing and workflow improvement through helpful tips, hands on practice, and real-life examples of running a house calls program.
- Grasp the concepts of quantifying the value behind your house calls practice and begin to understand how to partner your practice with potential value-based partners.

Audience / Registration Fees

	One Session	Both Sessions
Physicians	\$135	\$240
Advanced Practice Providers	\$90	\$165
Residents/Fellows	\$90	\$165
Practice Managers/Operations	\$90	\$165
Allied Health Professionals	\$90	\$165

Continuing Medical Education

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute, LLC and the Home Centered Care Institute. PeerPoint Medical Education Institute, LLC is accredited by the ACCME to provide continuing medical education for physicians.

PeerPoint Medical Education Institute, LLC designates this live activity for a maximum of 5.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other Credit

The following organizations accept certificates of participation for educational activities certified for AMA PRA Category 1 Credit™.

- Physician Assistants: American Academy of Physician Assistants (AAPA)
- Nurse Practitioners: American Academy of Nurse Practitioners Certification Program (AANPCP)
- Nurses: American Nurses Credentialing Center (ANCC)
- Practice Managers: Medical Group Management Association (MGMA)
